

A Master's Way (Part 2)

It is not easy to be a real Master of The Martial Art.

It is also not possible to be a child master. The reason for this is a child has not enough 'Life Knowledge' to be a leader in the Martial Art.

It should also be remembered that not all students can be Masters, however it is possible for all students to persevere to obtain Master grade.

There are certain criteria which a Real Master requires. Not least the following:-

Honour If you cannot live your life honourably then you should not attempt to be a Master.

Humility If you have no humility then you will not be a successful Master

Dedication

Determination

A Master If you have no Master to guide you then your task is almost impossible.

A Philosophy Without a philosophy your students will have no guidance and can only go through the motions.

Loyalty If you have no loyalty then you will obtain no loyalty, or for that matter, no continuity.

Trust You must develop trust in yourself, your Master's judgement, and your chosen system.

Master Ron Brennan

Chief Instructor of Kim Chung Do Kwan UK
